B2

### About Me

Data Analyst in development with solid experience in Architecture, applying analytical thinking and managing complex projects. Skilled in using tools such as Python, SQL, Power BI, and Tableau to transform data into actionable insights.

### Work Experience

#### Personal Projects – Data Analyst (Freelance)

August/2024- Present

- Sales Data Analysis (Coffee Shop, Supermarket)
- Data Visualization. Developed dashboards for tracking key indicators in educational development.
- Data Exploration in Python: Processed financial data using Pandas and SQL to generate reports and automate queries.

#### Lantana Corporation

April/2024- August/2024

- Review of actual physical progress vs. scheduled physical progress vs. financial progress.
- Optimized project management processes by applying tracking and control methodologies.
- Neodata ERP System Update with reports on piece rates, estimates, and subcontractors.

#### ARXEARQUITECTOS

January/2023- October/2023

- Developed and presented detailed reports to clients, using effective visual and narrative techniques.

#### Universidad de Guanajuato

March/2022-September/2022

- Quantification and categorization of spaces in the university campuses.
- Managed complex projects by collecting and analyzing technical data for decision-making.
